EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael Ross on 1 July 2004.

The application has been amended as follows:

IN THE CLAIMS:

Claims 61-78:

Please cancel non-elected claims 61-78.

Claim 79:

In claim 79, line 1, change "according t" to --according to--.

IN THE ABSTRACT:

In line 9 of the abstract, delete "said" and insert therefore --the--.

2. Reasons for canceling non-elected claims 61-78 and amending claim 79:

Art Unit: 1745

Newly submitted claims 61-78 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claims 61-78 are drawn to a silicate compound which is an independent invention from the invention drawn to the phosphate compound that was elected and examined in the previous office action.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 61-78 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The present Examiner's amendment cancels nonelected claims 61-78.

Claim 79 was amended due to a typographical error.

3. The following is an examiner's statement of reasons for allowance:

Neither, EP 1094533 A1, WO 00/60680 A (equivalent document EP 1094533 A1 relied upon for translation), or Barker et al. (US 2003/0077514 A1) of record discloses, teaches, or suggests a compound given by the formula of claim 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
